

THE ULTIMATE SHELTER SOLUTION FOR A

TEMPORARY FIRE STATION

The Permanent Solution to Your Temporary Needs

[VIEW 3D VIRTUAL](#) >

FORTS (Fold-Out Rigid Temporary Solution) are rapidly deployable, durable and highly energy-efficient fold-open shelters which are ideal for a variety of applications around the globe. They are made from light-yet-durable insulated aluminum panels providing unmatched storm resistance and thermal efficiency.

FORTS can also be connected to provide larger structures using our proprietary Tandem technology.

FORTS products are made in the U.S.A. at our 500,000 square feet HQ in South Florida. FORTS unique build and customization options make it an ideal solution for field hospitals, medical clinics, disaster field offices, base camp operations and more. We are proud to be in business over 40 years providing our products around the country, and we are particularly honored to introduce our most recent product category, the FORTS Temporary Fire Station.

What are FORTS Temporary Fire Station?

FORTS Temporary Fire Stations are spacious multi-room suites specifically designed to match the comfort and functionality of permanent fire stations. Leveraging our experience in the disaster and medical industry and with significant input from fire departments across the country, we created the first-of-its-kind full functioning temporary firehouse, customized to fit 3 to 8-bed layouts. Fully furnished with 3-4 shift rotations in mind, FORTS Temporary Fire Stations are built to streamline firehouse operations during renovations so there is no loss to operations.

What Makes FORTS Different

01 Rapid Deployment

FORTS Temporary Fire Stations are lightweight and engineered for speed, allowing fire departments to establish temporary stations promptly and avoid construction delays.

02 Customization Options

FORTS offer customizable layouts and features, ensuring that temporary fire stations meet the specific needs of each fire department.

03 Resilience and Safety

FORTS are designed to withstand harsh environmental conditions and provide a safe and secure environment for firefighters and emergency personnel. Whether facing extreme weather or high-impact usage, FORTS Temporary Fire Stations always remain ready to serve.

04 Scalability

Whether fire departments need a 2-bed suite or a 6-8 bed complex, FORTS can easily scale to accommodate varying spatial requirements.

05 Mobility

FORTS modular buildings are designed for easy relocation, allowing fire departments to adjust their operational footprint as needed during construction or relocate temporary stations to different stations as needed.

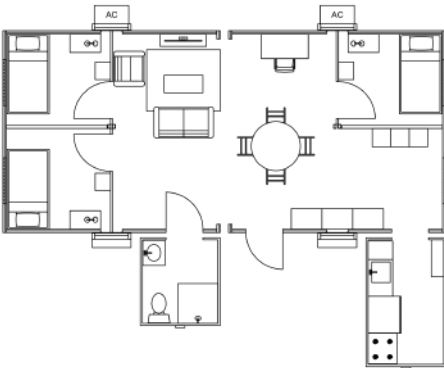

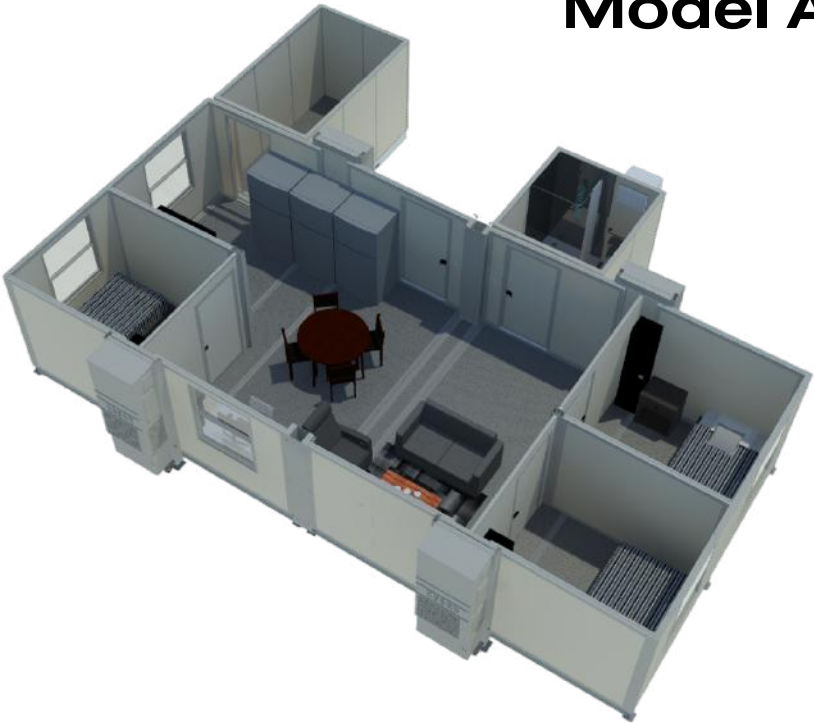

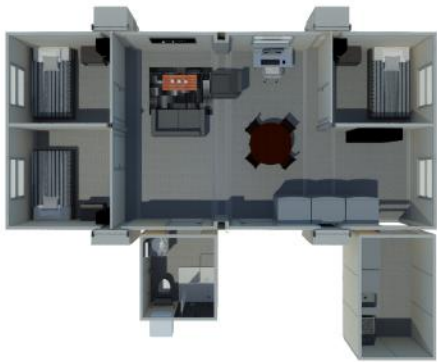

06 Customer Service

Experience the convenience of a full turnkey service with FORTS. From the structure itself to the furniture, kitchen facilities, bathrooms, and beyond, we handle every detail, allowing you to focus on what matters most; protecting your community.

TEMPORARY FIRE STATION

The Permanent Solution to Your Temporary Needs!

In the heat of emergency situations, every second counts.

That's why FORTS Temporary Fire Stations are engineered for speed, ensuring no operational time is lost when it matters most. From concept to completion, our innovative structures are designed to seamlessly integrate into your firefighting operations, providing an instant hub for critical response.

Comfort meets functionality within our temporary fire stations. Clean, insulated interiors offer a sanctuary amidst chaos, providing a space where firefighters can recharge and strategize effectively. With full customization options available, every aspect of the station can be tailored to suit your specific needs, ensuring optimal efficiency and comfort for your company.

Durability is at the core of FORTS' design mission. Built to withstand the toughest conditions, our structures are engineered to stand the test of time, providing a reliable long-term solution for your firefighting needs. Whether facing extreme weather or high-impact usage, FORTS Temporary Fire Stations always remain ready to serve at a moment's notice.

Experience the convenience of a full turnkey service with FORTS. From the structure itself to the furniture, kitchen facilities, bathrooms, and beyond, we handle every detail, allowing you to focus on what matters most

...protecting your community.

With FORTS, you can trust that your temporary fire station is not only operational in record time but also equipped to support your team's needs comprehensively.
